### **High-speed industrial cleaner**

For the cleaning and preserving of moulds, machines and tools and the regular care and cleaning of all machinery. The high-speed industrial cleaner is indispensable when fitting bolts, machine parts and screw threads. A thin protective film repels water and neutralises the sweat from the hands. Perfect for the thorough care and cleaning of moulds, machines and tools.

### **High-speed domestic cleaner**

Dirt vanishes, colours brighten up, dust and the effects of the weather are kept at bay, rust is removed from bumpers, wheels and machine parts, and everything is protected from further harm. Good for the thorough care and cleaning of car bodywork, mopeds, bicycles, machines and motors.

### **Metal polishing paste**

A universal product for manufacturing industry, workshops and the home for cleaning and conserving metal and plastic. Adds a new and brilliant shine and protects from further corrosion. The polishing paste cleans, polishes, removes rust and protects. Industrial usage for shafts, plastic injection moulds (inside and outside), printing and gridpattern rollers (metal and ceramic), working tables. Usage in workshop for inspection hatches, tools, shafts, machine parts, guides, rails. Using at home for bicycles, garden tools and machines, camping and boating equipment, guns.

### **Rost remover**

Loosens bolts which have rusted in place, lubricates and cleans automatically, protects against corrosion, makes moving parts easy to move and stops squeaks. Works for a long time. Available as a special penetrating spray oil, rich in high-colloidal graphite.
